

Addition Facts in 7 Days

Correlation to the Math Standards

Grade K
Operations and Algebraic Thinking (K.OA)
Represent addition and subtraction with objects, fingers, mental images, drawings, sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations. (K.OA.A.1)
Decompose numbers less than or equal to 10 into pairs in more than one way, e.g., by using objects or drawings, and record each decomposition by a drawing or equation (e.g., $5 = 2 + 3$ and $5 = 4 + 1$). (K.OA.A.3)
Grade 1
Operations and Algebraic Thinking (1.OA)
Apply properties of operations as strategies to add and subtract. (1.OA.B.3)
Add and subtract within 20, demonstrating fluency for addition and subtraction within 10. Use strategies such as counting on; making ten; decomposing a number leading to a ten; using the relationship between addition and subtraction; and creating equivalent but easier or known sums. (1.OA.C.6)
Understand the meaning of the equal sign, and determine if equations involving addition and subtraction are true or false. (1.OA.D.7)
Determine the unknown whole number in an addition or subtraction equation relating three whole numbers. (1.OA.D.8)
